All Classes require an additional charge to membership, see your favorite trainer for details!

Small Group Training \$89 per Month

Essentially Personal Training in a Group Setting, Small Group Training is intended to work all Major Muscle Groups while teaching Proper Technique and giving Personal Attention to each exercise and participant. Strength Training is at the heart of any fitness goal, and is the focus of our Program. Small Group Training also includes Kettlebell and Power Burner!

Kettlebell/Power Burner \$49 per Month

These dynamic classes are 45 minutes of high energy resistance training! You will be taught how to properly execute each movement in a safe manner, all while receiving an excellent workout.

Kettlebell focuses on our most versatile piece of equipment. This class uses timed intervals to get your cardio, strength and conditioning all at once!

Power Burner will give you the option to focus on strength or cardio, or you can create your own adventure and do a little of both! Power section focuses on building muscular strength and size. Our Burner side focuses on getting your heart rate up and keeping it there!

Either of these classes is a great way to supplement your training program!

Stronger Living- \$49 per Month

After the age of 40 we lose about 5% of our muscle mass per decade, this is the opportunity to reverse that effect. This workout is intended to maintain/increase muscle mass to maintain a healthy youthful appearance and lifestyle, while focusing on stability and endurance to not only increase your lifespan but your ability to enjoy your life! *Small Group Training does NOT include Stronger Living.
